

U. S. FOOD CONTROL WILL BE ABSOLUTE AFTER NOVEMBER 1

Government food control will be absolute after November 1. Herbert Hoover today is putting the finishing touches on a proclamation shortly to be issued by President Wilson, licensing dealers in about twenty prime necessities of life.

The "blackboard business" will be rounded up by the coming executive order, according to Hoover. Regulations will be issued checking speculation in foodstuffs and preventing hoarding, waste, and restriction of output. "Unfair and unreasonable" profits will be eliminated.

Control to Be Wide.
Among the commodities to be placed under control are flour, bread, meat, potatoes, sugar, milk, butter, and dairy products, rice, canned foods and staple vegetables.

Although regulation of retailers is limited by law to those doing a business of \$100,000 or more annually, Hoover expects to exercise indirect control over the smallest corner grocery through his hold on meat packers, cold storage houses, millers, canners, elevators, grain dealers, and wholesalers.

After November 1 no unlicensed dealer can handle the commodities to be named by Hoover. Regular reports from licensed firms will enable the food administration to keep a strong hold on them. A local department has been created to punish violation and interpret the law.

Plan Follows Study.
The licensing plan resulted from over 200 conferences held with leaders in all lines of trade, and has their approval.
"No business factor performing a useful function," will be interfered

Was Wedded To 'Rainbow Officer' By Phone

MRS. RUBY TAYLOR.

First Lieut. Joseph O. Taylor, at Camp Mills, couldn't tell how soon the "Rainbow Division" might be off for France, and arranged a marriage by telephone with his fiancée, Miss Ruby Knight, at Bainbridge, Ga. She has arrived in New York and is with her husband, who is on forty-eight hours' leave.

with, according to Hoover. Elimination of some unnecessary middlemen may result from Hoover's determination to keep foodstuffs flowing from producer to consumer "in direct lines in as economical a manner as possible."

HE CATCHES 'TUNA FISH,' FINDS IT IS BUCKET

AVAILON, Cal., Oct. 9.—The old joke never dies. Capt. A. L. McKelvey took John C. Cline, Frank Dominguez, Milton Cohn, and T. Castleman tuna fishing. Cohn was the goat.

"I've got a tuna," exclaimed Castleman after he had been fishing for some time without a strike. "My, how it fights!"

And as he began to reel in he stopped suddenly, as if in great pain by the expression of his face, and cried: "That damn rheumatism! I've got to quit or let the rod fall overboard."

"Give it to me," said Mr. Cohn eagerly, and for thirty minutes thereafter Mr. Cohn pumped, perspired, and reeled in until finally the "tuna" was brought to the gaff.

The "tuna" proved to be the bale of a bucket when it was hauled on board.

"For the love of Mike," said Cline, Dominguez, and Castleman in unison. Captain McKelvey had his hand over his mouth looking intently at a band of goats browsing on the hillside near Seal Rocks. Cohn was too exasperated to speak.

EDE MAE, BRIGHT GAYETY STAR, HAS MYSTIC SEA SHELL

The Egyptian mirror, famous among the natives for ages for its power to reveal strange images and scenes, is threatened by a rival today in the form of a sea shell which is the property of Miss Ede Mae, prima donna of the "Million Dollar Doll" Company, playing at the Gayety Theater this week. In the glossy surface of the shell Miss Mae claims she can see strange images and figures, representing men, women, and trees, waves and even the stars. She found the quaint shell under a moss-covered ledge in the submarine garden at the Catalina Islands, a short distance from Los Angeles.

Tells Secrets in Dark.
In order to be able to see strange objects in the surface of the shell it must be placed in a dark room, with a bare light of a phosphoric substance. The shell then reveals its secrets. By the phosphoric light the surface of the shell seems to fade away under steady, piercing eyes. Gradually it appears as a glossy mirror and slowly, indistinctly at first, according to the actress, the objects become visible.

"When I first saw the shell I thought it might be like any of the ordinary kind of shells that divers find on the ocean bottom," said Miss Mae today.
"I saw later that it had strange properties. One night when it was lying on a table in a dark room I thought I could see a strange figure in its smooth surface. I examined it more closely and then took it to a chemist. He was much interested and looked in it himself by the light of phosphorus. Ever since that time I have looked at it often and it helps to pass away many an interesting hour."

Actress Since Seventeen.
Miss Mae left the shell with her relatives in California before she came East a few weeks ago to head the "Million Dollar Doll" company. She has lived all her life in the West and last month was the first time she had ever set foot across the Mississippi river.

The versatile burlesque star has been on the stage since she was seventeen years old. This is her first burlesque season. Last year she was in musical stock. She appeared in successes in a number of west coast cities. Miss Mae was born in Portland, Ore.

Her healthy complexion, typical of the girl of the West, is due to horseback riding across the broad plains of her native section, she explained. She likes burlesque best of all her stage ventures.

MUNSEY BUYS BUILDING TO HOUSE PROPERTIES

Publisher Gets Stewart Building on Broadway and Will Rebuild.

NEW YORK, Oct. 10.—Purchase of the Stewart building, at Broadway, Chambers and Reade streets, by Frank A. Munsey for the erection in its place of a home for the Sun, Munsey's Magazine, and the other Munsey publications, is announced in the Evening Sun. The property was valued at about \$4,000,000, it was stated.

The site is a historical landmark, part of it once having been occupied by the famous old Washington Hall, which was destroyed by fire in 1842. Purchase was made from the heirs of Judge Henry Hilton, who was executor of the estate of the late A. T. Stewart. Mr. Stewart's building now occupies the site in 1845.

The property has a frontage of 181 feet on Broadway and of 235 feet each on Chambers and Reade streets. It is situated at the entrance from Broadway to the community of public buildings adjacent to the City Hall Park and Park Row.

It was declared to be Mr. Munsey's intention to erect on the site a monumental structure.

GERMAN EDITOR HELD FOR AIDING FUGITIVES

AIKEN, S. C., Oct. 10.—Charged with giving aid to fugitive Germans, Albert Orth, editor of the Deutsche Zeitung, of Charleston, has been indicted on five counts by a Federal grand jury. The specific charge is that he aided Capt. Robert Fay in making his escape last August from the Atlanta Federal prison.

Paul Pierce, a local newspaper man, was placed on trial today charged with conspiracy in connection with the sinking of the German vessel Liebenfels in the Charleston harbor.

"Kaiser," in Chains, Led Through N. Y. Streets

The sight of William Hohenzollern marching through the streets of lower New York handcuffed to Uncle Sam brought a deafening round of cheers from the crowds that lined the curbs and watched the passing of "his imperial German majesty."

This striking spectacle was produced by departing members of local draft board No. 85, of New York city. Robert Kenney was Uncle Sam, and Louis Annachiaro impersonated the chief exponent of German Kultur.

The triumphal march was made as a sort of send-off to the selected men booked for the national army camp at Yaphank, Long Island. Fifty-five other selected men accompanied Uncle Sam and his prisoner to the cantonment.

BOLSHIVIKI CONTROL COUNCIL'S DELEGATES

PETROGRAD, Oct. 10.—The Bolshiviki (the radicals) have gained control of the Petrograd executive committee of the council of workmen and soldiers' delegates. Hitherto the moderate socialist element was in control.

Tcheldize has been deposed as president of the council and the Maximalist Trotsky (Bronstein) has been chosen to succeed him.

TWO ALIENS KILLED IN ESCAPE ATTEMPT

LAREDO, Tex., Oct. 10.—The bodies of Hans Frellich and Raymond Heisch, two aliens who had been prisoners in the internment camp at Fort McIntosh here since August 15, have been found in the Rio Grande river badly decomposed. They escaped with three other aliens early last Sunday, it has just been announced, and sought to reach points in Mexico. Three of them succeeded in swimming the Rio Grande but were taken at Nuevo Laredo, Mexico.

The only explanation the officials have to offer is that the prisoners in some way obtained a duplicate pass key. A thorough investigation is being of the affair to determine how they obtained the key and more strict regulations will be thrown about other aliens now held at the fort.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will stay lustrous, glossy, silky, and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

City Physicians Explain Why They Prescribe Nuxated Iron

To Make Beautiful, Healthy Women and Strong Vigorous Men
NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY

Quickly Transforms the flabby flesh, toneless tissues, and pallid cheeks of weak, anemic men and women into a perfect glow of health and beauty—often increases the strength of delicate, nervous, run-down folks 100 per cent in two weeks' time.

It is conservatively estimated that over three million people annually in this country alone are taking Nuxated Iron. Such astonishing results have been reported from its use both by doctors and laymen, that a number of physicians in various parts of the country have been asked to explain why they prescribe it so extensively, and why it apparently produces so much better results than were obtained from the old forms of inorganic iron.

Dr. Ferdinand King, a New York Physician, and Medical Author says: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale. The flesh flabby. The muscles lack tone, the brain fags and the memory fails and they often become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

In the most common foods of America, the starches, sugars, table syrups, candies, etc., there is no iron. Bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cereals, and other refined iron to be found. Refining processes have removed the iron of Mother Earth from these foodstuffs. The iron and silty methods of home cooking, by throwing down the waste-pipe the water in which our vegetables are cooked are responsible for another grave iron loss.

Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron just as you would use salt when your food has not enough salt.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago and former House Surgeon, Jefferson Park Hospital, Chicago, in commenting on Nuxated Iron, says: "It has been my particular duty during the past six years to assist in keeping Chicago's five thousand bluecoats in good health and perfect fighting trim so that they would be physically equipped to withstand all manner of storms and the ravages of nature's elements."

Recently I was prompted through an endorsement of Nuxated Iron by Dr. Schuyler C. Jacques, of St. Elizabeth's Hospital, New York, to give it a trial. This remedy has proved to be a most strengthening the muscles, and correcting digestive disorders."

Dr. E. Schuyler, a Boston physician who has studied widely both in this country and in great European Medical Institutions, says: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages, I am convinced that in this way they could ward off disease, preventing it becoming chronic in thousands of cases and thereby saving the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble, and other dangerous

maladies. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood.

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. It was astonishing to find him with a blood pressure of a boy of 20 and as full of vigor, vim, and vitality as a young man; in fact, a young man he really was notwithstanding his age.

The secret, he said, was taking iron. Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 40 he was careworn and nearly all at 50, a doctor had told him Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good, and as a consequence you become weak, pale, and sickly-looking, just like a plant trying to grow in a soil deficient in iron.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were all the while doubting their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver, and other troubles in from two to four weeks' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit.

But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray; while many another has gone down in inglorious defeat simply for the lack of iron.
